About Us

Finer things, beautifully curated, exquisite collection

Refine by CHROMA is a brand that carries an exquisite range of premium wood panels. The first two collections under Refine are the Concave and Solid Series which consists of a variety of textures and colours to choose from.

Grown from Chroma Furnishing, we have a rich history and vast knowledge in the residential and commercial furnishing industry, our growth recorded over the years has never changed our drive to create one-of-a-kind products. We are continually exploring new decorating solutions, made to measure and conceived with exquisite taste made available to everyone — from the professional to the pure passionate.

The Solid Series

Uniform and consistent panels with different profiles to choose from.

Covered with premium film lamination with pinewood core, the Solid Series is a part of our new exquisite “Refine” wall decorations.

Installation

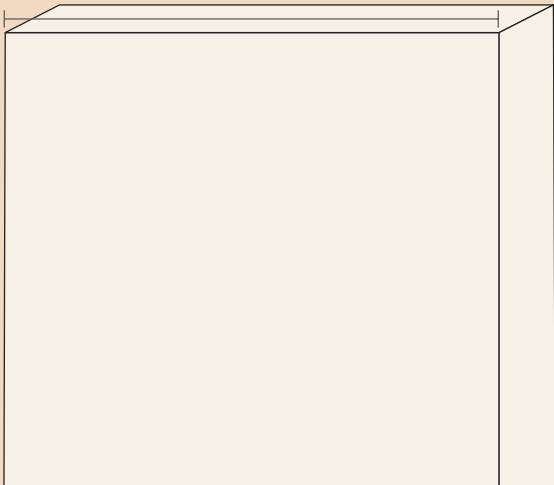

Full Wall with End Caps

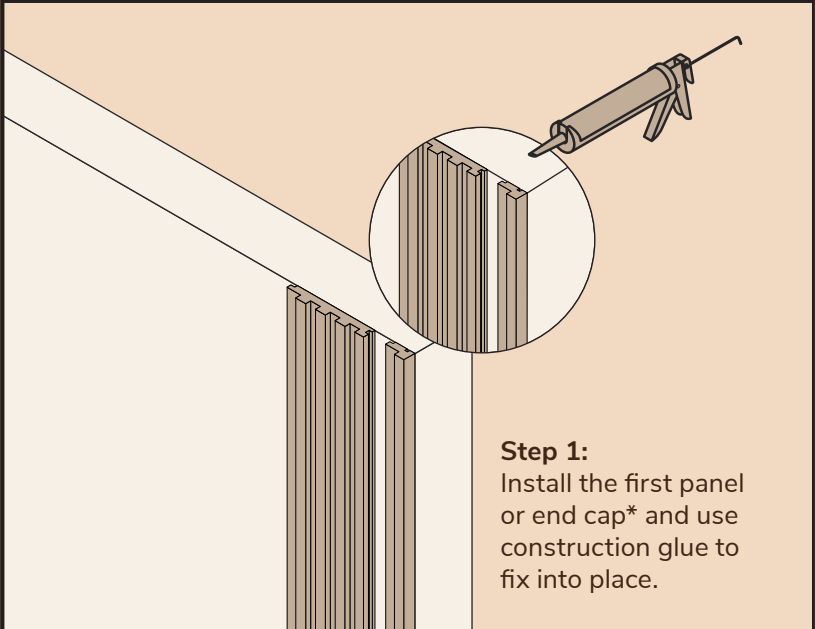

Close up of End Caps

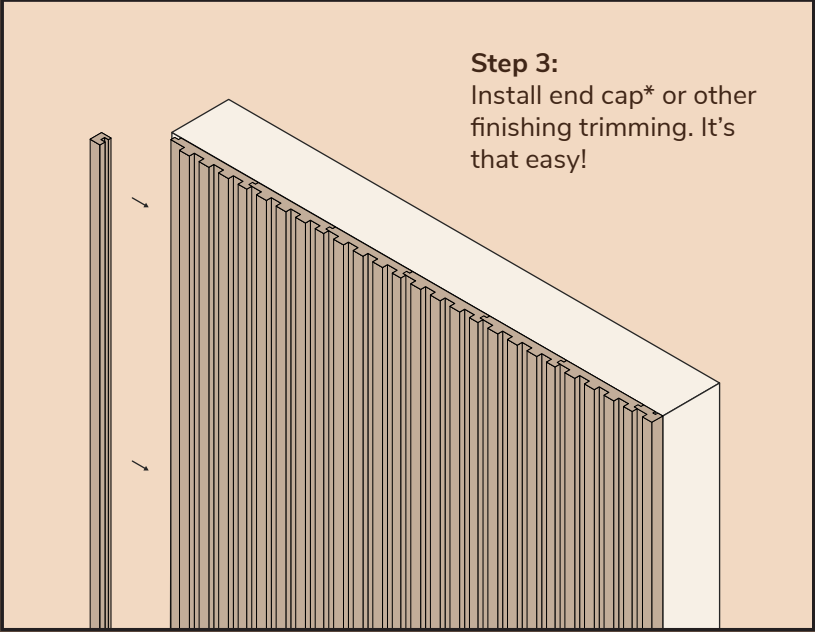

Before you begin:
Measure the wall and decide if end caps* are necessary.

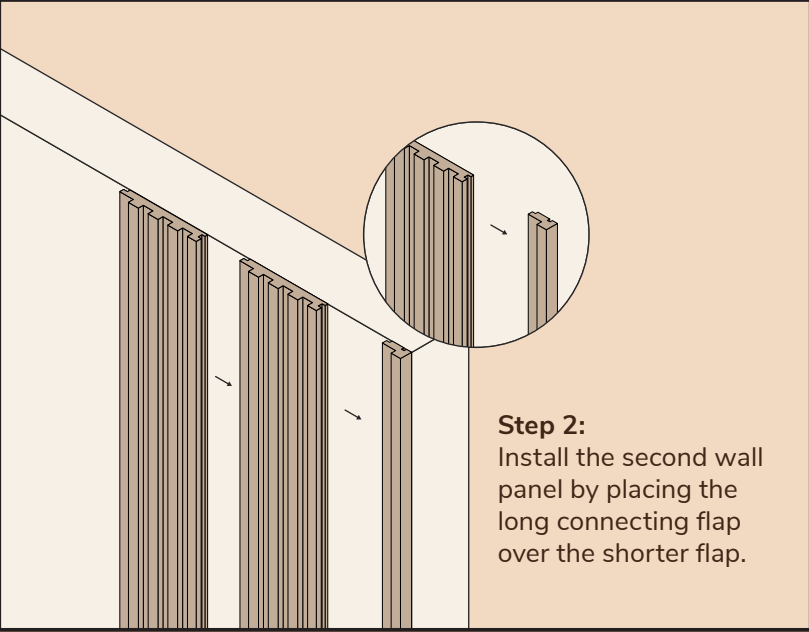

Step 1:
Install the first panel or end cap* and use construction glue to fix into place.

Step 3:
Install end cap* or other finishing trimming. It's that easy!

Step 2:
Install the second wall panel by placing the long connecting flap over the shorter flap.

Solid Fluted used in this installation example

*End caps are only applicable to Solid Fluted, Tube and Organic Series.

Solid Fluted

Symmetrically linear, the perfect minimalistic interior wall decor

Size: 150mm x 20mm
